

2025 CAA Statistical Bulletin

Full-Year Summary — 2024 vs. 2025

Report Overview

- ~ Full-Year Cigar Summary (page 1)
- ~ Taxable Removals of Large Cigars — Quarterly & Monthly (page 2)
- ~ Taxable Removals of Little Cigars — Quarterly & Monthly (page 3)
- ~ Taxable Removals of Cigarettes — Quarterly & Monthly (page 4)
- ~ Taxable Removals of Pipe Tobacco — Quarterly & Monthly (page 5)
- ~ Taxable Removals of Roll-Your-Own Tobacco — Quarterly & Monthly (page 6)
- ~ Miscellaneous Industry Statistics — December 2025 (page 7)
- ~ Inventory on Hand at Close of Business — Monthly (pages 8–9)

Full-Year 2025 Summary

Large cigar removals declined 7.8% year-over-year, while little cigars remained essentially flat at –0.4%. Both categories showed meaningful quarterly variation, with Q4 emerging as a stabilization signal for large cigars.

Large Cigars (See Pages 2–3)

Through December 2025, total large cigar taxable removals reached **9,809 million units**, down **7.8%** from 10,642 million in 2024. Declines were recorded in three of four quarters, with particularly sharp weakness in Q1 and Q2.

Quarterly Performance

- Q1 2025: 2,249M units — down 9.3% vs. Q1 2024 (2,480M). February was the weakest month at –25.0%.
- Q2 2025: 2,359M units — down 18.0% vs. Q2 2024 (2,878M). April fell 30.2% and May fell 20.8%, the two steepest monthly declines of the year.
- Q3 2025: 2,654M units — down 6.4%. September was the lone positive month in the first three quarters, up 1.3%.
- Q4 2025: 2,548M units — up 4.0% vs. Q4 2024 (2,450M). October (+9.1%) and November (+8.8%) both posted gains, marking the first back-to-back monthly increases of the year.

Domestic vs. Imports

- Domestic factories: 2,036M units YTD, down 14.4% from 2,380M in 2024. December domestic removals were 153,093 thousand units.
- Foreign imports: 7,773M units YTD, down 5.9% from 8,262M in 2024. December import volume was 627,440 thousand units.

Imports represent approximately **79%** of total large cigar supply, a share that remained consistent with prior years. Domestic production declined at more than twice the rate of imports.

Key Takeaways

- The full-year decline of 7.8% follows an 8.0% decline in 2023/2024, suggesting a continued but decelerating contraction.
- Q4's 4.0% year-over-year gain is the first quarterly increase since Q4 2022 and may signal a floor forming in domestic consumption.
- December 2025 removals of 781M units were down 5.7% from December 2024 (828M), a more moderate pace than earlier in the year.

Little Cigars (See Page 4)

Total little cigar taxable removals for 2025 were **237 million units**, essentially unchanged from 238M in 2024 (**–0.4%**). Despite the flat full-year result, the category experienced significant intra-year volatility.

Quarterly Performance

- Q1 2025: 78M units — up 77.7% vs. Q1 2024 (44M). March alone surged 175.1% to 44M units, accounting for the majority of the quarterly gain.
- Q2 2025: 58M units — down 8.0% vs. Q2 2024 (63M). May (–20.8%) and June (–19.7%) partially reversed the Q1 surge.
- Q3 2025: 70M units — down 2.0% vs. Q3 2024 (71M). September recovered strongly, up 36.8%.
- Q4 2025: 32M units — down 47.0% vs. Q4 2024 (61M). November fell 64.1% and December fell 61.5%, unwinding the elevated Q1 volumes.

Domestic vs. Imports

- Domestic factories: 31,358 thousand units YTD. December domestic production was 2,127 thousand units.
- Foreign imports: 205,635 thousand units YTD, up 6.8% from 192,529 thousand in 2024 — the only category where imports increased year-over-year.

Key Takeaways

- The full-year flat result masks a pronounced timing shift: the category front-loaded in Q1 (particularly March) and saw sharp payback in Q4.
- Little cigars represent approximately 2% of total cigar volume and have limited effect on aggregate market trends.
- The Q4 import increase (+6.8%) diverged from the domestic decline (–31.1%), worth monitoring for continuation in early 2026.

Notes

- Taxable removal data sourced from the Alcohol and Tobacco Tax and Trade Bureau (TTB), Monthly Statistical Release – Tobacco Products.
- Import data sourced from the U.S. Census Bureau (IM-146), based on U.S. Customs Service data.
- All cigar figures in millions of units (YTD totals) or thousands of units (monthly detail) unless otherwise noted.
- Year-to-date figures reflect cumulative totals January through December 2025.

CAA Statistical Bulletin

Summary of Taxable Removals — December 2025

Taxable Removals (Domestic Factories and Imports)	December				Year-to-Date			
	2024	2025	Unit	% Chg	2024	2025	Unit	% Chg
